

Bonding technologies for sealing profiles

Glueing [G]

- joining of profiles in the shape of frames or o-rings
- an economical method of joining profiles while maintaining the required strength and durability of the bond

Film vulcanization [V]

- strengthening of profile ends by film vulcanisation
- the whole process ensures a durable and resistant bond

Injection molding [M]

- durable joining method
- bonding of two different sections by injection moulding
- high degree of joint tightness
